We need to have this discussion in public for the sake of all Americans who fear g-d, because the LGBT are claiming that they have a right to issue threats of violence, fighting words, defamation against Muslims, and then they hide their provocations and pretend that the planes are flying into buildings because the Islamic religion is just as “false” as the Jewish and Christian religions (when none of the Abrahamic religions are “false”).

At least one district court judge in the District of New Jersey contacted the U.S. Marshals about the troubling email they received from [REDACTED]. And yet, despite having been convicted and sentenced to serve a term of imprisonment for sending a threatening email to a federal magistrate judge, [REDACTED] continued to contact federal judges via email.²

² [REDACTED] has also contacted this Court via email, which prompted the Court to enter an order on December 21, 2018, directing [REDACTED] to cease sending emails to chambers. ECF No. 189 (“On December 20, 2018, Defendant [REDACTED] sent an email directly to the judge’s chambers. . . . [REDACTED] is instructed that he is not permitted to send any further emails to the judge’s chambers. Any emails sent to the judge’s chambers will be deleted. All communications must be sent to the clerk of court.”). Just four days after this order was entered, [REDACTED] sent the December 25th email to the district court judges in the District of New Jersey, knowing that this was (and still is) an improper method of communicating with the district court. This is further evidence of [REDACTED]’s rude, contemptuous, and disrespectful attitude toward the courts, which should give this Court pause before releasing [REDACTED] from detention pending resolution of the allegations in the violation petition.

Subject: FW: Third Circuit Appeal No. ██████████

please bring this matter to the attention to every single law enforcement and media organization you know (to include making sure that Donald Trump publicly admit that he is aware of this scandal, because he is also trying to pretend he does not know anything about it because it appears (and I hope that I am wrong), that he may be putting his desire for a second term above the safety and security of the public. This is not a hoax. I am hoping this substantially crazy First Amendment ruling issued in the litigation referenced above can be immediately discussed by the democratic public so that we can finally make an obvious First Amendment decision to classify homosexuality as a religion (rather than a race) so that they no longer attempt to claim a "First Amendment Right" to violate the First Amendment because they are "special." If there is no First Amendment, there is no America. There is a terrorism threat to the general public that demands we have this conversation in public so that the public can make a democratic decision on how to fix it (because the litigation reference above destroys the credibility of the entire judiciary if someone does not immediately act to restrain this illegal conspiracy to provoke terrorism which is now being waged by the LGBT). The LGBT can only be defined as a religion (or a disorder) whose core belief is that the human body is a "mistake" or otherwise "not real." The LGBT do not have a First Amendment right to force their religion upon others (and especially NOT the Muslims who have nothing to do with the Church sex-abuse scandal) because they have not yet presented evidence confirming a specific DNA pattern that 100% predicts departure from pure heterosexuality in the human species (just like we have found DNA patterns for other biological traits). Until this so-called "biological proof" is presented, the judiciary can only classify the LGBT as a religion. You cannot create a category of discrimination based upon "gender identity" or "sexual orientation" because these are religious ideologies and terms that only exist in the LGBT religion and nowhere else (and thus just by creating these categories, the government is showing preference for the LGBT religion over all other religions). Thus it is abundantly clear that LGBT are already covered under the banner of prohibition against religious discrimination (according to how religions are allowed to express their First Amendment beliefs, just like all the other religions). Unfortunately the LGBT have chosen to create a religion that is based entirely on sexual themes, and so the LGBT banned their own religion as "age inappropriate" for anyone to learn about prior to 21 years of age without parental permission. There is unfortunately no way around that because the LGBT chose to have a purely sexual religion. Even though sexuality is discussed in the Judaic, Christian and Islamic religions, it is not the complete focus of their religions as it is a focus for the LGBT religion, and so there is no way to talk about the LGBT religion while segmenting the sexual portions out of it when having a conversation about it in front of children. The problem is that once you segment out the sexual portions, what is left of the LGBT religion to discuss? Nothing, because the entire religion is about making sexual gratification the most important thing in the world, and the only thing that deserves to be worshiped. Thus the LGBT are already protected from discrimination because religious discrimination is generally prohibited, unless your religion requires you to teach "alternative sex" to children (which is a crime as you cannot teach children about "alternative sex" without permission from the parents).

We need to have this discussion in public for the sake of all Americans who fear g-d, because the LGBT are claiming that they have a right to issue threats of violence, fighting words, defamation against Muslims, and then they hide their provocations and pretend that the planes are flying into buildings because the Islamic religion is just as "false" as the Jewish and Christian religions (when none of the Abrahamic religions are "false").
