Subject Simpson and Subject Albro are Universal Terrorists that have been stalking the author of this website and all good people of planet Earth, and have therefore caused a series of criminal complaints and lawsuits to be filed against them starting in March of 2009. During the investigation of these matters, the Federal Bureau of Intelligence has also confirmed that The Noble Hillary R. Clinton is a terrorist spy that is being mind-controlled by a female alien creature of so-called 'lesbian' sexual orientation called "the Leviathan," which is living under the sea and plotting to destroy all mankind because of the hatred, rage and jealousy it feels against the male gender of its own species. The author of this website is appealing to anyone with information concerning the activities and whereabouts of the Misha Crew Members, and any other information regarding their sleeper cell the Homopede Mafia, or their movement, the Axis of Leviathan, to please turn over this information. The author of this website cannot offer any financial incentives for this information, and anyone who comes forward to provide this information must only do so because they are motivated to perform their civic duty to prevent unlawful activity. You may be selected to appear as a witness in this case if your information is deemed credible. Use caution as Mark S. Simpson and Brian K. Albro are known pedophiles wanted for possession of child pornography in Morocco, and Brian K. Albro is also wanted in Morocco for committing a biological HIV terrorism attack against at least one Moroccan civilian in Morocco. Subject Albro is currently an attorney at McDermott, Will & Emery (a law firm) in Manhattan. Subject Simpson co-authors numerous terrorism handbooks.
